# Dolomites Photography Workshop

## AUTUMN IN THE DOLOMITES

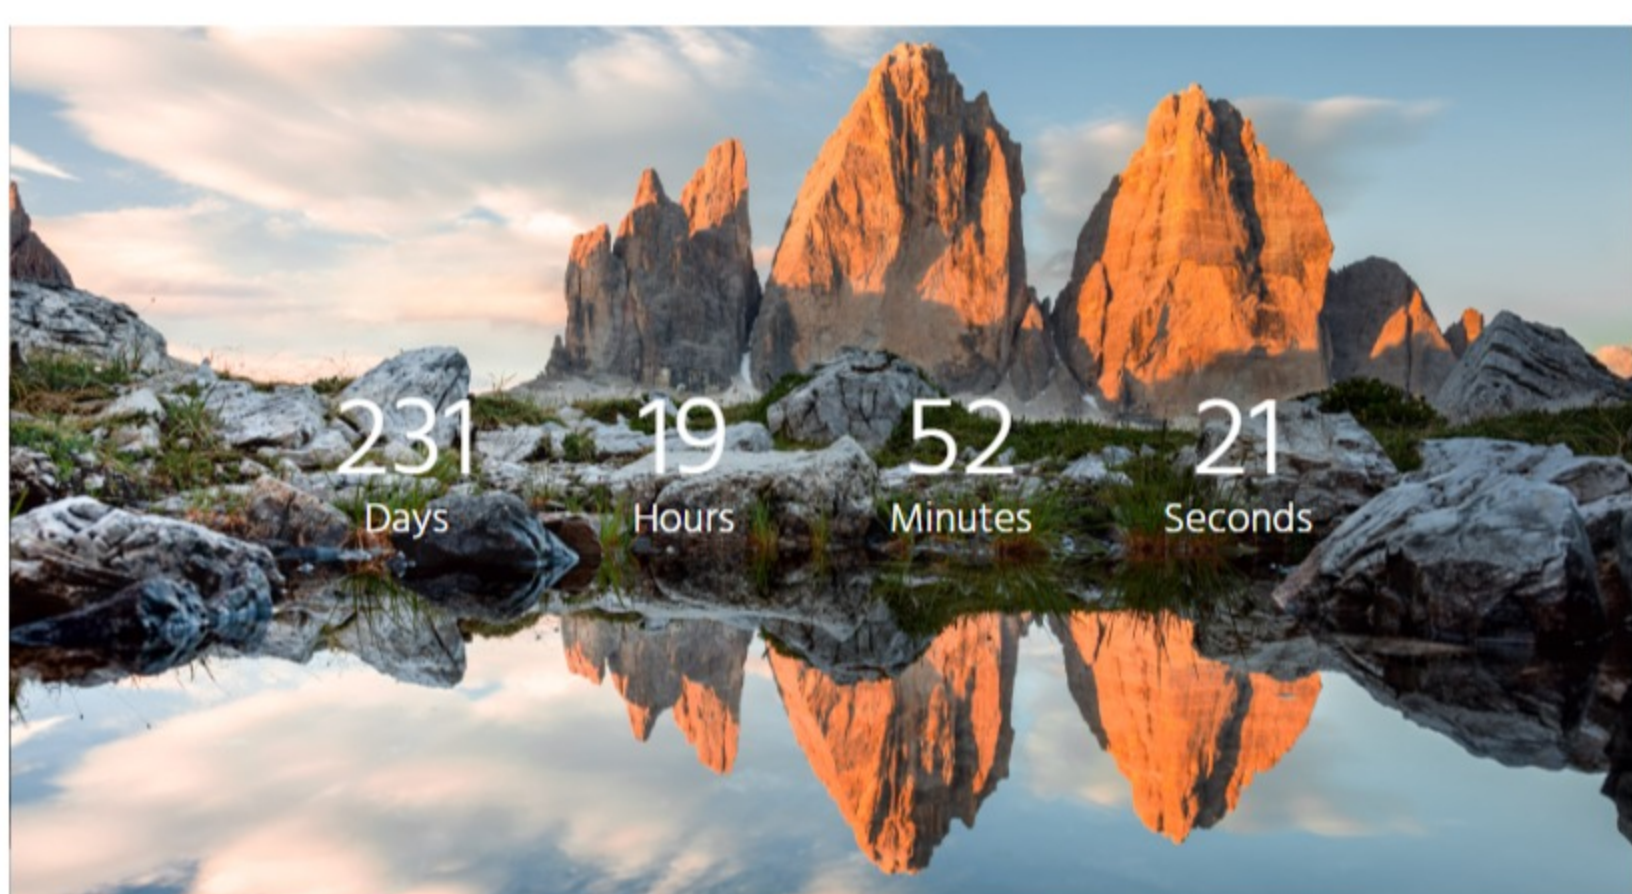

Capture a stunning palette of colours this autumn on a small group tour of the Dolomites in Northern Italy. Scheduled to coincide with the peak of the autumn foliage, this brand new photography workshop will allow you to see the destination at its most majestic.

The Dolomites are one of the most photogenic mountain ranges in Europe, and not just because they were declared a UNESCO World Heritage Site. When you see the forest turn yellow, orange and red against a backdrop of dramatic grey peaks, blue skies and turquoise lakes, you know you are in a unique place.

During this small group dolomites photography workshop I will personally help you build on your knowledge of light, lenses and filters, while giving you free rein to unleash your own creativity.

We will hike the pristine meadows around Seceda, peek through a blanket of clouds from the mountain tops, and catch the forest reflected in the chilly, crystal waters of Lake Carezza. We will also step into historical churches, like hushed St Maddalena, which sits at the bottom of a scenic valley. Have your camera always fully charged to make the most of the golden hour. With the change of sunlight, the limestone peaks of Tre Cime di Lavaredo can take on dazzling golden or fiery hues in a few moments.

At nightfall you can enjoy a meal with the group or retreat to your private, en-suite room and kick up weary feet after a long day out. Accommodation with breakfast is included, no need to sacrifice comfort just because you are on the mountain.

 **FLY TO**  
Treviso Airport (TSF) or Marco Polo (VCE)

 **HOTEL ACCOMODATION**  
Private, en-suite room with breakfast.

 **DATE**  
12th - 18th October 2020
